Projects

1. E-Commerce Website   10 DEC 2024 - 20 DEC 2024

- Responsive E-Commerce Platform: Built a mobile-friendly e-commerce site with HTML, CSS, and JavaScript, ensuring smooth navigation across all devices.
- Dynamic Product and Cart System: Developed dynamic product listings, filters, and a seamless shopping cart using JavaScript for easy product browsing and checkout
- Enhanced UI/UX: Designed a visually appealing interface with custom CSS and animations to improve user engagement and shopping experience.

2. Weather App   1 DEC 2024 - 8 DEC 2024

- Real-Time Weather Data Integration: Developed a weather app using JavaScript and APIs to fetch real-time weather data, providing users with accurate weather forecasts for any location.
- Interactive User Interface: Designed a user-friendly interface with HTML and CSS, allowing users to easily view weather details like temperature, humidity, and forecasts in a visually appealing format.
- Location-Based Forecasts: Implemented location-based weather search functionality, enabling users to get weather updates based on their city or GPS location.

3. Personal Portfolio Website   15 NOV 2024 - 25 NOV 2024

- Personalized Online Portfolio: Created a dynamic, visually engaging portfolio website using HTML, CSS, and JavaScript to showcase personal projects and skills in a professional format
- Interactive UI with Smooth Transitions: Designed a responsive layout with custom animations and smooth transitions using CSS, ensuring a polished, user-friendly experience.
- Project Display & Contact Form: Developed a section to display key projects with details and a contact form, allowing visitors to get in touch easily and view relevant work.
